

Alberto Torres

Senior Frontend Engineer

Querétaro, Mexico (Open to Remote) | +52 442 510 0627 | mayorga.at@gmail.com | [LinkedIn](#) | [Github](#)

SUMMARY

Senior Frontend Engineer with 6+ years of experience building fast, reliable, and user-focused web applications using Angular, React, and TypeScript. Strong in performance tuning, rapid iteration, reusable component libraries, and shipping features quickly. Thrives in fast-paced startup environments, takes ownership, and collaborates closely with product and design teams.

EXPERIENCE

Senior Frontend Engineer | MTech Systems

Querétaro, Mexico | July 2019 - September 2025

- Orchestrated and scaled a Shared UI Library with 30+ reusable components, accelerating feature delivery by 25% across 5+ product teams.
- Engineered performance-critical optimizations for enterprise modules, eliminating UI freezing and significantly improving responsiveness for a platform used by 125+ companies.
- Spearheaded UI bug triage and quality initiatives, resolving 100+ critical bugs and mentoring junior developers to increase team velocity and code quality.
- Partnered with Design and Product teams to evolve the internal Design System, implementing testing practices that reduced production defects.

Software Engineer | Huawei Technologies México

Querétaro, Mexico | January 2019 - June 2019

- Developed automation tools using UIPath/WorkFusion and internal C# utilities.

Web Developer | Amaranto MKT

Querétaro, Mexico | August 2017 - December 2018

- Delivered responsive UI components and implemented front-end features for client projects.

PROJECTS

Waves Player | Music Discovery App | [Live Demo](#) | [Github Repo](#)

Personal Project

- Architected and deployed a production-ready music platform using React, TypeScript, and Vite, implementing a scalable architecture with strict separation of concerns.
- Engineered a secure backend proxy using Vercel Serverless Functions to handle third-party API communication, CORS, and environment-secured configurations.
- Optimized user engagement by delivering a mobile-first UI with Media Session API integration, achieving seamless audio control and high-performance data fetching.

STRENGTHS

- **Frontend:** React, Angular, Next.js, React Native, Chakra UI, Angular Material, React Router, Bootstrap
- **Architecture & State:** RxJS, Redux, NX, Design Systems, Shared Component Libraries
- **Styling:** HTML5, CSS3, SCSS, Tailwind
- **Testing:** Cypress, Jest
- **Monitoring & DevOps:** Sentry, TrackJS, Azure, Git, CI/CD
- **Backend:** NestJS, REST APIs, PostgreSQL

EDUCATION

B.S. in Software Engineering | Universidad Autónoma de Querétaro

Querétaro, Mexico | August 2015 - December 2018
